

November 16, 2006

Dear Dr. Hasegawa-Johnson,

I am pleased to support the recruitment of subjects for the research project titled "Audiovisual Distinctive-Feature-Based Recognition of Dysarthric Speech" being conducted by your team of researchers at the University of Illinois at Urbana/Champaign. I have agreed to distribute information about the project to people or groups that I think maybe interested in participation. At no time will I provide information on potential subjects directly to you or other researchers on the project, I will only disseminate information you provide to me. People interested in participation will directly contact you and or other researchers on the project to express their interests in participation and coordinate a time for actual participation. I look forward to working with you on this project.

Sincerely,

Jamie Murray-Branch
